- ability to make effective decisions in stressful situations.

LANGUAGES

- English: B2
- German: B2
- Polish: B2.

ABOUT ME

- Volleyball
- Cars
- Music
- Books
- Cooking

PROFILE

I'm a JavaScript and React developer. I am a team player, and I know how to take responsibility and lead a team, because I play volleyball. When I was a child, I had daily swimming training of 4 km six times a week, so I understand the importance of discipline and achieving goals.

EXPERIENCE

MONTHLY PRACTICE

CBT Minsk

2022

- The front-end part of the application is for accounting dismissed employees. It contains personnel information about the employee and job requirements. The front-end was developed using React, while the back-end was implemented using .NET and MySQL for the database. The application was designed as part of an internship at CBT Minsk.

DIPLOM WORK

Minsk

2022

- My graduation project was based on the website projects I did as part of my courses. The project is called "Tuning Shop" and is intended for car owners and repair shops. The front-end was written in React, while the backend was planned to be developed with JavaScript, Node.js, and MySQL.

OTHER PROJECTS

- React Pizza - user-friendly online pizza ordering platform.
- Gericht Restaurant - modern restaurant portfolio highlighting its advantages.
- AI Summerizer - web page summarization service utilizing AI technologies.

EDUCATION

BACHELOR OF TECHNOLOGY

Belarusian State University of Informatics and Radioelectronics

2018-2022

MASTER OF TECHNOLOGY

Wrocław University of Science and Technology

2023-Today
